# FOOD INDUSTRY BALANCERS

	1600÷2500 mm
	0,2÷14 kg

TECNA balancers are known worldwide for their strong build, durability, performance and ease of use. Ergonomics, production efficiency, easy handling and lifting of tools and equipment. Less stress on your back and joints for a better quality of life and safety. Robustness in all conditions, in all environments.

**ZERO GRAVITY** balancers with completely stainless parts, both outside and inside; food-grade grease NSF-H1 certified; aluminum housing with high-resistance Rilsan treatment against oxidation and chemical

aggression of soaps and detergents, with low surface rugosity to improve cleaning and sanitizing efficiency against dirt and bacteria.

**RETRACTOR** balancers feature stainless steel on all external parts; food grade grease NSF-H1 certified; aluminum housing with hard anodization treatment, resistant to oxidation and chemical aggression.

	2000÷3000 mm
	4÷180 kg

The new **FOOD INDUSTRY LINE** brings the excellence of balancers in extreme working environments: a product that can work in the presence of steam, moisture and humidity, resistant to chemical aggression of cleaning and sanitizing products.

Applications range from the food and beverage industry to the dairy industry, from meat processing and slaughtering to the sausage industry, from sweets to bread, from seeds and nuts to fruits and vegetables, from washing and sanitizing to chemical or saline environments.

You need it, we solve it.
